**Glenn H. Miller**

My name is Glenn Miller, most of you know me from the Cabela's Shows. I live near Hamburg, PA at the foothills of the Blue Mountains with my wife of 42 years, Helen. We have two daughters and six grandsons. (Three of whom are competing in the youth division.) I started hunting when I was 12 years old with a long bow in one of the first "Archery Seasons". I have been fortunate to be able to hunt in various United States and Foreign Countries.

Conventions, (Lancaster, Penn State, Altoona and Somerset). Then when Cabela's began hosting the

 It will make YOU  
 a better  
 Taxidermist!**

My interest in taxidermy began about the same time, when I ordered the J. W. Elwood mail order course (which I still have). Taxidermy then took a back seat to girls, earning a living, raising a family, stating a business, etc. My interest was rekindled when I took some African Trophies to Barry Kehr of Shoemakersville, PA. Taxidermy had changed dramatically in the ensuing 25 years!

Mini Show in 2003, I started helping at Cabela's and entered my first competition. I was very apprehensive, but to my surprise I enjoyed the competition and found the Judge's Critique to be fair and helpful! Soon after this competition,

I began competing at Cabela's and the State Shows.

In 1999, I attended the Northwood School of Taxidermy in Stoystown, PA. Upon Graduation I opened a part time studio. In 2006, I retired from my other endeavors and became a full time taxidermist.

One day Barry stopped to visit me, and as I was finishing some customer pieces, he carefully looked them over and remarked "I can tell you are COMPETING, IT SHOWS IN YOUR WORK!"

Barry Kehr had graciously become my mentor and encouraged me to compete. I attended several PTA

To all members of the PTA, come to the competitions and compete, you will learn so much, make great friends and meet the industry vendors and view their products. Support the PTA. IT WILL Make YOU a BETTER Taxidermist!

Sincerely Yours in Conservation and Taxidermy,  
 Glenn H. Miller
