Raymond Murawski Jr.

My name is Raymond Murawski Jr. I own and operate Ray's Taxidermy Studio in Falls, Pa. I can do all phases of fish, bird, and mammal taxidermy but prefer game heads, life size, and fish. I also have dermestid beetles and provide wholesale taxidermy work. I started with the Northwestern School of Taxidermy, took individual lessons with some who are no longer with us, and progressed by attending the many seminars at the taxidermy conventions. I share my talent by mentoring others in the art of taxidermy and provide mounts to the local school or educational purposes.

My wife, Rachel, and I truly love the outdoors. We have enjoyed hunting and fishing from Newfoundland to Florida, New Jersey to Wyoming. We spend our free time

enjoying what God has given to us...the great outdoors! Some of the best memories include hunting moose in Newfoundland, elk, antelope and mule deer in Wyoming, and fishing the Long Island Sound, Lake Ontario, and the great Susquehanna River.

“We spend our free time enjoying what God has given us... the great outdoors!”

I believe in the P.T.A and still can't understand why there are still those who will not join the organization. I go back to the original founding of the P.T.A. and have hosted the P.T.A. convention in the

past at the Woodlands in Northeast PA. It is a great way to gain expertise and experience by meeting and listening to experts in the industry as well as gain an understanding of the business side of the industry which is much needed as an independent business owner.
